

Name:

_____ Quarter HOMEWORK report

*This school year, we are not collecting and monitoring **practice records** on a regular basis. However, personal time is critical to the advancing development of student musicians, including physical development.*

This record is due no later than _____, and will count toward your homework grading area. Remember, when there are not many grades within an area, each grade is extremely important.

For the period: _____ **DUE** _____

For each practice time, fill in the grid below:

What is your desired outcome: <i>.(why are you doing this?)</i>	How does your practice help achieve this outcome: <i>(what/how did you practice?)</i>	How much time did you work on this? On which days?

*Your practice record should include several components: tone development (long tones, etudes, etc.); scale studies; articulation exercises; classroom music practice; music of your choice that you like to play outside of the classroom time. **Be specific** - write specific rhythms, parts in music, specific scales and articulations, with tempo markings, etc. Besides that this is for a homework grade, what else do you want to gain from your practice time and how do you practice to get what you want?*

Aim for a minimum of 90 minutes over the course of the time period.
